EDUCATION

University of Toronto

September 2023 - April 2029

Bachelor of Applied Science - B.A.Sc in Computer Engineering

Toronto, ON

- Relevant Courses: Calculus I, Calculus II, Engineering Strategies & Practice, Fundamentals of Computer Programming (C/C++)

WORK EXPERIENCE

ecobee

May 2025 - August 2025

Server Engineering Intern

Toronto, ON

- Developed and enhanced Golang backend APIs for smart thermostat partner integrations, including adding new fields by refactoring existing API data models; ensured 100% backward compatibility across partner endpoints.
- Led an OpsLevel System & Infrastructure Tagging campaign, auditing and updating 50+ YAML configuration files across repositories to meet company-wide infrastructure compliance standards.
- Collaborated with cross-functional teams (backend, data, and platform engineers) through GitHub PRs, JIRA, design reviews, and test validation, accelerating feature delivery and reducing review iteration cycles.

PROJECTS

Speak&Sync | Developer

October 2024

New Hacks Hackathon Project

Toronto, ON

- Developed and deployed an AI tool with a frontend built using HTML, JavaScript, and React; designed to enhance customer service efficiency by summarizing real-time conversations.
- Implemented spaCy NLP techniques in Python to generate concise, actionable summaries from customer interactions, resulting in an increase in information retrieval speed for agents during customer support calls.

VOLUNTEER EXPERIENCE

University of Toronto Robotics Association (UTRA) Hacks

January 2024

Volunteer

Toronto, ON

- Organized hardware components such as stepper motors, thermal sensors, ultrasonic sensors, arduino unos, and heartbeat sensors; Acted as a liaison between participants and managers for any hardware component defects;
- Coordinated check-in for 150+ participants, greeting and assisting them efficiently, while collaborating with a team of 10 to organize setup and supply distribution..

EXTRACURRICULARS

Bridge to Campus

September 2024 – Present

Mentor

Toronto, ON

- Mentored 3 high school students in rural Canadian communities, providing guidance on university applications and transitions to higher education.
- Fostered strong mentor-mentee relationships, boosting students' confidence and understanding of post-secondary options, with mentees reporting increased clarity on their educational paths.

SKILLS & INTERESTS

Technical Skills: Python, Java, C/C++, HTML/CSS, Javascript, MATLAB, Verilog, AutoCAD

Interests: Baking, Volleyball, Painting
